

Telephonic Interview

U.S. App. No. 10/790,451

Title: SYSTEM AND METHOD FOR MEASURING COLOR ON A PRINTING PRESS

Examiner: Edward Park

Counsel: Steven C. Becker, Reg. No. 42,308, Stephen S. Eisenmann

Time:

Date:

AGENDA

- Identify Copending Application No. 10/424,230
- Discuss New Independent Claims 41, 57, and 64.
- Discuss Sikes
 - Sikes discloses only one CCD matrix sensor. Sikes does not disclose "a first image device configured to receive a light from a portion of multiple patches of a colorbar" (Claim 41). Sikes does not disclose "a first imaging device," "a second imaging device," and "a lens configured to emit a first image and a second image" (Claim 57). Sikes does not disclose "the first light blocker is positioned outside of the first imaging device and between the first imaging device and the printed substrate" (Claim 64).
- Discuss putting application in condition for allowance
- Discuss submitting new IDS
